# CAMSHAFT INSTALLATION GUIDE

In order to ensure maximum life from a new replacement AE camshaft and components, it is important that the following fitting procedures are carried out:

1 Check that the new camshaft is the same as the old camshaft, particularly with regards to the oil drillings.

2 Check that the camshaft bushes are not excessively worn or damaged.

3 Check that the valves, valve seats, guides, springs and valve stem seals are serviceable. Timing gears and timing chains should be examined for wear. Replacement or machining should be carried out as necessary. Timing belts should always be replaced when fitting a new camshaft.

4 On the NEW camshaft check that the oil ways are **CLEAN** and **UNBLOCKED**. Thoroughly clean any preservative from all contact surfaces, taking care not to damage the bushes or contact faces.

Having completed the above checks, reassemble paying particular attention to the following:

5 New camshaft followers/tappets **MUST** be fitted. This is very important to avoid premature camshaft failure. Warranties will be invalid if this operation is not carried out.

6 Thoroughly lubricate all cam bushes and camshaft lobes with pre-lube or good quality engine oil.

7 The camshaft end float should be checked and adjusted according to the engine manufacturer's workshop manual.

8 Use new Payen gaskets, seals and head bolts.

9 Replace engine oil and fit new CHAMPION oil filter.

10 Finally, where applicable, the tappets should be checked and correctly adjusted. This operation should be repeated after around 800 km (500 miles) service.

It is not possible to produce universal fitting instructions for all camshafts. Therefore the above notes must be read in conjunction with the engine manufacturer's workshop manual. Adherence to these guidelines, plus regular servicing, will ensure a long trouble-free life from a new replacement camshaft and components.

Modell, in Reihenfolge nach zunehmenden Hubraum eines Herstellers geordnet, soweit nicht eine Auflistung einer Motorenfamilie sinnvoller ist.

# NOCKENWELLEN EINBAUANWEISUNG

**Damit eine maximale Haltbarkeit der neuen Nockenwelle erreicht werden kann, bitte beim Einbau folgendes beachten:**

- 1 Prüfen, ob die neue Nockenwelle mit der alten übereinstimmt, insbesondere hinsichtlich der Ölbohrungen.
- 2 Prüfen, ob die Nockenwellenlager nicht stark abgenutzt oder beschädigt sind.

- 3 Prüfen, ob die Ventile, Ventilsitze, Führungen, Federn und Schaftabdichtungen in einwandfreiem Zustand sind. Steuerräder und Steuerketten sollten ebenfalls auf Abnutzung geprüft werden. Bei Bedarf entsprechende Nacharbeiten durchführen. Steuerriemen sollten beim Einbau einer neuen Nockenwelle immer ersetzt werden.

- 4 Überprüfen Sie an einer neuen Nockenwelle stets, ob die Ölkanäle SAUBER und DURCHGÄNGIG sind. Alle Kontaktflächen sorgfältig reinigen und darauf achten, dass die Lager und Kontaktflächen nicht beschädigt werden.

**Nach diesen Prüfungen muss der Zusammenbau unter genauer Beachtung folgender Punkte stattfinden:**

- 5 Neue Schleppebel/ Stößel müssen eingebaut werden. Dies ist besonders wichtig, um einen vorzeitigen Ausfall der Nockenwelle vorzubeugen. Garantieleistungen sind ausgeschlossen wenn diese Arbeiten nicht durchgeführt werden.

- 6 Schmier Sie sorgfältig alle Nockenwellenlager und Nocken mit 'Prelube' oder einem anderen Qualitätsöl.

- 7 Das Spiel am Nockenwellende sollte geprüft und nach den Angaben des Motorenherstellers justiert werden.

- 8 Verwenden Sie neue Payen - Dichtungen und Wellendichtringe.

- 9 Füllen Sie neues Motoröl ein und verwenden Sie einen CHAMPION - Ölfilter.

- 10 Anschließend muss das Ventilspiel geprüft und justiert werden. Achtung: Bei der Verwendung von Hydrostößeln unbedingt darauf achten, dass diese entsprechend der Herstellerhinweise mit Öl befüllt sind.

Die hier aufgeführten Punkte sollen im Zusammenhang mit den Anweisungen des Motorenherstellers verstanden werden. Eine Befolgung dieser Richtlinien plus einer regelmäßigen Wartung sorgt für eine lange und problemlose Haltbarkeit der Nockenwelle.

# CONSIGNES DE MONTAGE PIÈCES DE MOTEUR D'ARBRE A CAMES

Afin d'assurer une durée de vie maximale au moteur à partir d'un nouvel arbre à cames, il est important d'appliquer les méthodes de montage suivantes:

1 Vérifier que le nouvel arbre à cames est identique à l'ancien arbre à cames, en particulier, en ce qui concerne les passages d'huile.

2 S'assurer que les coussinets de l'arbre à cames ne sont pas usés ou endommagés de façon excessive.

3 Vérifier que les soupapes, sièges de soupape, les guides, les ressorts et les joints d'étanchéité des tiges de soupape sont en bon état. Les engrenages de distribution et les chaînes de distribution doivent être examinés afin de détecter toute usure. Leur remplacement ou leur usinage doivent être effectués selon les besoins. Les courroies de synchronisation doivent toujours être remplacées lors du montage d'un nouvel arbre à cames.

4 Sur le nouvel arbre à came, vérifiez que les passages d'huile sont propres et non obstrués.

Enlever complètement tout agent préservant de toutes les surfaces de contact, en prenant soin de ne pas endommager les coussinets ou les faces de contact.

Après avoir achevé les vérifications ci-dessus, remonter l'ensemble en prêtant une attention particulière aux points suivants:

5 De nouveaux galets de came/poussoirs à tige doivent être montés. Cela est très important afin d'éviter une usure prématurée de l'arbre à cames. Les réclamations seront invalidées si cette opération n'est pas effectuée.

6 Graisser à fond tous les coussinets de came et les lobes de l'arbre à cames avec du pre-lube AE ou une huile moteur de bonne qualité.

7 Le jeu axial de l'arbre à cames doit être vérifié et réglé conformément au manuel d'atelier du fabricant de moteur.

8 Utiliser de nouveaux joints d'étanchéité Payen.

9 Remplir le carter avec une nouvelle huile et monter un nouveau filtre à huile Champion.

10 Finalement, les poussoirs à tige doivent être vérifiés et réglés correctement. Cette opération doit être recommencée après un parcours de 800 kms.

Il n'est pas possible d'établir des consignes universelles de montage pour tous les arbres à cames. Les consignes ci-dessus doivent être lues parallèlement avec le manuel d'atelier du fabricant de moteur. L'observation de ces directives, plus un entretien courant régulier, devront assurer au moteur une longue durée de vie sans problèmes à partir d'un nouvel arbre à cames de remplacement.

### Secuencia de los paneles:

Los paneles se encuentran ordenados por modelo y en orden ascendente de cilindrada dentro de cada marca del fabricante del vehículo.

# ÁRBOL DE LEVAS INSTRUCCIONES DE MONTAJE

Para asegurar la máxima duración en la sustitución de un Árbol de Levas nuevo, es importante que se lleven a cabo los siguientes procedimientos de montaje:

1 Comprobar que el Árbol de Levas nuevo es igual que el Árbol de Levas viejo, especialmente en lo referente a los pasos de aceite.

2 Verificar que los casquillos de los Árboles de Levas no estén excesivamente desgastados o deteriorados.

3 Comprobar que las válvulas, los asientos de las válvulas, las guías, los muelles y los retenes de válvula estén servibles. Debería examinarse si están desgastados los engranajes y las cadenas de transmisión. Siempre que resulte necesario deberán mecanizarse o substituirse. Cuando se monte un Árbol de Levas nuevo deben cambiarse siempre las correas de distribución.

4 En el Nuevo árbol de levas, comprobar que el camino de circulación del aceite está limpio y libre. Eliminar a fondo cualquier residuo de todas las superficies de contacto, teniendo cuidado para evitar de no dañar los casquillos o a las superficies de contacto.

Habiendo realizado las verificaciones anteriores, efectuar el re-montaje prestando una atención especial a:

5 Colocarse nuevos taqués/ elevadores al Árbol de Levas. Esto es muy importante para evitar un fallo prematuro del Árbol de Levas. Las garantías quedarán sin validez si no se lleva a cabo esta operación.

6 Lubricar a fondo todos los casquillos y las levas del árbol de Levas con prelube AE o con un aceite de motor de buena calidad.

7 Debería comprobarse y ajustarse el desplazamiento final del eje de distribución de acuerdo con el manual de taller del fabricante del motor.

8 Utilizar nuevas juntas y retenes.

9 Llenar el motor con aceite nuevo y cambiar el filtro de aire por uno nuevo.

10 Finalmente, deberían comprobarse y ajustarse correctamente las excéntricas. Esta operación debería repetirse después de 800 Km de servicio.

Es imposible proporcionar instrucciones de montaje universales para todos los Árboles de Levas. Las indicaciones anteriores deben leerse conjuntamente con el manual de taller del fabricante del motor. El seguimiento de estas instrucciones, además de un mantenimiento regular, asegurará una larga duración exenta de problemas en las substitución de un Árbol de Levas nuevo.

# ALBERO A CAMME ISTRUZIONI DI MONTAGGIO

Al fine di garantire la durata massima dell'albero a camme di ricambio, è importante seguire attentamente le istruzioni di montaggio riportate qui di seguito:

- 1 Controllare che il nuovo albero a camme sia identico al vecchio, in particolare per quanto riguarda i fori per il passaggio dell'olio.
- 2 Controllare che le bronzine dell'albero a camme non siano troppo consumate o danneggiate.

- 3 Controllare che le valvole, le sedi delle valvole, le guide, le molle e le guarnizioni degli steli delle valvole siano in buone condizioni. Verificare che gli ingranaggi della distribuzione e le catene della distribuzione non presentino segni di usura. Provvedere eventualmente alla sostituzione o alla rettifica. Quando si provvede al montaggio di un nuovo albero a camme, sostituire sempre le cinghie di distribuzione.

- 4 **Sul nuovo albero a camme controllare che i canali olio siano PULITI e NON BLOCCATI.**  
Togliere gli eventuali preservanti dalle superfici di contatto, facendo attenzione di non danneggiare le bronzine o le superfici di contatto.

Una volta effettuati i controlli suindicati, provvedere al rimontaggio, verificando che:

- 5 La punteria sia stata sostituita. Questo punto è particolarmente importante onde evitare dell'albero a camme. L'inosservanza di questo punto comporta l'annullamento delle garanzie.

- 6 **Lubrificare bene le bronzine delle camme e i lobi dell'albero a camme con pre lubrificante AE od olio per motore di buona qualità.**

- 7 Controllare e regolare il gioco assiale dell'albero a camme osservando le istruzioni riportate nel manuale di manutenzione del fabbricante del motore.

- 8 **Usare nuove guarnizioni e sistemi di tenuta.**

- 9 Riempire il carter con olio fresco e sostituire il filtro dell'olio.

- 10 Controllare e regolare opportunamente la punteria ogni 800 chilometri.

Non è possibile fornire istruzioni universali per tutti gli alberi a camme. Le istruzioni di cui sopra devono essere osservate unitamente a quelle riportate sul manuale di manutenzione del fabbricante del motore. L'osservanza delle istruzioni e la manutenzione frequente garantiscono la lunga durata e il corretto funzionamento del nuovo albero a camme.

# INSTRUKCJA MONTAŻU WAŁKA ROZRZĄDU

W celu zapewnienia maksymalnego okresu eksploatacji nowego wałka rozrządu i jego podzespołów należy przeprowadzić następujące procedury montażowe:

- 1 Sprawdzić, czy nowy wałek rozrządu jest taki sam jak wymieniany, dotyczy to zwłaszcza otworów olejowych.
- 2 Sprawdzić, czy panewki wałka rozrządu nie są zbyt zużyte lub uszkodzone.

- 3 Sprawdzić, czy zawory, gniazda zaworów, prowadnice, sprężyny i uszczelki trzonek zaworów są zdadne do użytku. Należy sprawdzić pod kątem zużycia koła i łańcuchy rozrządu. Jeśli to konieczne, przeprowadzić naprawę lub obróbkę skrawaniem. Przy wymianie wałka rozrządu należy zawsze wymienić pasek rozrządu.

- 4 W przypadku nowych wałków rozrządu należy sprawdzić czy wszystkie kanały olejowe są niezablokowane i czyste. Dokładnie wyczyścić środki konserwujące ze wszystkich powierzchni stykowych uważając, aby nie uszkodzić panewek lub powierzchni przylgowych.

Po wykonaniu powyższych kontroli zmontować ponownie, zwracając szczególną uwagę na następujące kwestie:

- 5 **KONIECZNE** jest zamontowanie nowych popychaczy wałka rozrządu. Pozwoli to uniknąć przedwczesnej awarii wałka rozrządu. Jeśli nie zostanie to wykonane, gwarancja jest nieważna.

- 6 **Dokładnie nasmarować wszystkie panewki rozrządu i powierzchnie robocze wałka za pomocą smaru wstępnego lub dobrej jakości oleju silnikowego.**

- 7 Należy sprawdzić konieczne luzy wałka rozrządu i wyregulować je zgodnie z podręcznikiem warsztatowym producenta silnika.

- 8 **Użyć nowych uszczelnień, uszczelki i śrub głowicy Payen.**

- 9 Wymienić olej silnikowy i zamontować nowy filtr oleju Champion.

- 10 Na koniec, jeśli ma to zastosowanie, należy sprawdzić i wyregulować popychacze. Operację tę należy powtórzyć po około 800 km przebiegu.

Instrukcje montażu poszczególnych rodzajów wałków różnią się od siebie. Dlatego powyższe uwagi należy stosować wraz z informacjami zawartymi w podręczniku warsztatowym producenta silnika. Przestrzeganie tych wytycznych i regularne serwisowanie zapewnią długie bezproblemowe użytkowanie nowego wałka rozrządu i jego podzespołów.

# ИНСТРУКЦИИ ПО УСТАНОВКЕ РАСПРЕДВАЛА

Чтобы обеспечить максимальный срок службы нового распредвала и компонентов ГРМ, очень важно выполнять установку в соответствии с приведенными ниже процедурами:

1 Убедитесь в том, что новый распредвал аналогичен старому, особенно в отношении смазочных каналов.

2 Убедитесь в том, что подшипники/втулки распредвала не имеют значительного износа и не повреждены.

3 Убедитесь в том, что клапаны, гнезда клапанов, направляющие, пружины и уплотнения стержней клапанов исправны. Проверьте износ шестерен и цепей механизма газораспределения. При необходимости выполните замену или ремонт. При установке нового распредвала всегда заменяйте ремни механизма газораспределения.

4 На **НОВОМ** распределительном вале убедитесь, что масляные каналы **ЧИСТЫЕ** и **НЕЗАБЛОКИРОВАННЫЕ**.

Хорошо очистите защитное покрытие со всех поверхностей соприкосновения так, чтобы не повредить втулки или поверхности вала.

После выполнения указанных выше проверок произведите сборку, уделяя особое внимание следующему:

5 **ДОЛЖНЫ** быть установлены новые рокеры/толкатели распредвала. Это очень важно с точки зрения предотвращения преждевременного отказа распредвала. Если данная операция не будет выполнена, гарантия станет недействительной.

6 Хорошо смажьте посадочные места и кулачки распредвала предпусковой смазкой или высококачественным моторным маслом.

7 Проверьте осевой люфт распредвала и отрегулируйте его в соответствии с руководством по ремонту производителя двигателя.

8 Используйте новые прокладки, уплотнения и болты ГБЦ.

9 Замените моторное масло и установите новый масляный фильтр.

10 И, наконец, где применимо, проверьте толкатели и отрегулируйте их соответствующим образом. Эту операцию следует повторить примерно через 800 км пробега.

Невозможно составить универсальные инструкции по установке для всех распредвалов. Поэтому приведенные выше замечания следует использовать вместе с руководством по ремонту производителя двигателя. Соблюдение данных инструкций и регулярное обслуживание обеспечат продолжительный безаварийный срок службы нового распредвала и установленных компонентов ГРМ.

# TERMS OF BUSINESS

## **IMPORTANT**

Reproduction of this catalogue or parts thereof is only allowed with our explicit permission in writing. Pictorial representations and design are copyrighted. Claims for damages, of any form whatsoever, resulting from details made in this catalogue or from incorrect use, application, storage or handling, are explicitly excluded. Contractual rights and any resulting or related claims based thereon, irrespective of form, initially come into being on the basis of a separate written agreement, in particular on the basis of our general terms of sale and delivery. All former statements lose their validity with the publication of this catalogue.

The catalogue is not an operating manual for the use and installation of camshafts, kits and components.

It does not contain any advice in a legal sense. The catalogue neither replaces the constantly applicable technical regulations – particularly for tolerances – nor the installation and maintenance stipulations of the individual engine manufacturer.

Also, it is not possible to forego the expertise of those carrying out the installation and application. The individual references made in this catalogue for the installation and the application of camshafts, kits and components are instructions solely for the technically qualified specialist and are to be checked and verified by them for their suitability in each case. Federal-Mogul accepts no responsibility for application decisions. The contents of the catalogue are not intended to create or substitute any contractual agreement which has to be reserved exclusively to a separate agreement between 2 identified parties, whereby seller can be only one of our Federal-Mogul entities as mentioned on the inside back cover. The right is retained to correct errors and alterations, particularly with regard to amendments in the engine manufacturers' details and stipulations.

## **ZUR BEACHTUNG**

Die Reproduktion dieses Katalogs ist nur mit unserer ausdrücklichen Genehmigung gestattet. Bildliche Darstellungen und der Entwurf sind urheberrechtlich geschützt. Schadenersatzansprüche in jedweder Form unter Berufung auf die Angaben in diesem Katalog oder infolge unsachgemäßen Gebrauchs, unsachgemäßer Anwendung, Lagerung oder Handhabung sind ausdrücklich ausgeschlossen. Vertragliche Rechte und etwaige hieraus folgende oder abgeleitete Ansprüche jedweder Art werden erst durch getrennte schriftliche Vereinbarung, im Besonderen auf der Grundlage unserer allgemeinen Verkaufs- und Lieferbedingungen, begründet. Mit Erscheinen dieses Katalogs verlieren alle früheren Angaben ihre Gültigkeit.

Der Katalog stellt keine Anleitung für den Gebrauch und den Einbau von Nockenwellen, Reparatur-Sätze & Komponenten. Es werden keine Ratschläge im rechtlichen Sinne abgegeben. Der Katalog ersetzt weder die jeweils geltenden technischen Maßgaben – insbesondere für Toleranzen – noch die Einbau- und Wartungsvorschriften des jeweiligen Motorenherstellers. Auch ist die Sachkenntnis derer, die den Einbau und die Anwendung vornehmen, eine wesentliche Größe. Die Aussagen in diesem Katalog zum Einbau und Einsatz von Nockenwellen, Reparatur-Sätze & Komponenten richten sich ausschließlich an den technisch versierten Fachmann und sind von diesem von Fall zu Fall auf Eignung und Gültigkeit zu überprüfen. Federal-Mogul übernimmt keine Verantwortung für Anwendungsentscheidungen.

Der Inhalt des Katalogs begründet oder ersetzt keine vertragliche Vereinbarung, welche ausschließlich einer getrennten Vereinbarung zwischen zwei bestimmten Parteien vorbehalten sein muss, in der die Verkäuferpartei eine unserer, innen im Rückdeckel, genannten Federal-Mogul Gesellschaften ist. Das Recht auf Berichtigung von Irrtümern und Abänderungen, insbesondere hinsichtlich geänderter Angaben und Bestimmungen der Motorenhersteller, bleibt vorbehalten.

## **IMPORTANT**

La reproduction de ce catalogue, même partielle, n'est autorisée qu'avec notre accord préalable et par écrit. Les illustrations graphiques et la présentation font l'objet d'un copyright. Nous excluons toutes réclamations ayant pour objet ce catalogue ou pouvant résulter de son incompréhension, portant sur de mauvaises utilisations, manipulations, manutentions ou mauvais stockage. Des droits contractuels et des droits dérivés, de quelque nature qu'ils soient, ne peuvent résulter que d'un accord écrit, sur la base de nos conditions générales de ventes et de livraisons. Ce catalogue annule et remplace toute édition antérieure.

Le catalogue n'est pas une notice d'utilisation et de montage des arbres à cames, kits et composants. Il ne contient pas de directives en tant que telles.

Le catalogue ne remplace ni les prescriptions techniques, toujours prioritaires, particulièrement pour les tolérances, ni les prescriptions de montage et d'entretien des fabricants des moteurs figurant dans ce catalogue. Il ne peut en aucun cas remplacer les connaissances professionnelles nécessaires pour le montage et l'utilisation des produits. Les remarques données pour le montage et l'utilisation des arbres à cames, kits et composants sont exclusivement destinées au professionnel averti et de formation technique, à qui il appartiendra de vérifier la conformité des indications pour chaque cas. La responsabilité quant aux décisions d'utilisation ne peut être prise en charge par Federal-Mogul.

Le contenu de ce catalogue ne peut constituer ou remplacer un contrat qui doit faire l'objet d'un document séparé établi entre 2 parties, dont l'une doit être une entité légale de Federal-Mogul (dont la liste figure sur la couverture arrière). Nous nous réservons le droit d'apporter toutes corrections d'erreurs et modifications, suite notamment à de nouvelles données fournies par les constructeurs.

## **IMPORTANTE**

Queda totalmente prohibida la reproducción, total o parcial, del contenido de este catálogo, salvo previa autorización nuestra, realizada por escrito. Están, asimismo, reservados todos los derechos sobre el diseño y presentación del catálogo. No se aceptará ningún tipo de reclamación que esté basada en la interpretación de los datos contenidos en este catálogo, así como en el incorrecto uso, manipulación o almacenaje de nuestras piezas. Únicamente se aceptarán reclamaciones que estén basadas en derechos contractuales o en los motivos arriba indicados, siempre que exista un acuerdo especial y por escrito basado en nuestras condiciones generales de venta y suministro. Con la edición de este catálogo queda anulada toda la información contenida en catálogos anteriores.

El catálogo no es un manual para el uso e instalación de los Árboles de Levas, kits y Componentes, y no representa una asesoría técnica en el sentido legal.

Los datos del catálogo no sustituyen, en ningún caso, a las especificaciones técnicas, tanto en lo que se refiere a tolerancias como a las instrucciones de instalación y mantenimiento, indicadas por los fabricantes de los motores, especificaciones que serán siempre prioritarias. Se entiende que el uso y montaje de estas piezas está encomendado a personal debidamente cualificado. Las indicaciones sobre uso y montaje de los Árboles de Levas, kits y Componentes, contenidas en este catálogo, están exclusivamente dirigidas a profesionales con la debida capacitación y formación técnica, que deben decidir en cada caso sobre la exactitud de las mismas. La responsabilidad de estas decisiones no puede ser, en ningún caso atribuidas a Federal-Mogul. La información facilitada en el catálogo no representa o sustituye ningún tipo de acuerdo, quedando a tal efecto, el acuerdo por separado entre dos partes donde sólo entidades de Federal-Mogul, pueden ser identificadas como la parte vendedora como se menciona en la contraportada. Los datos e instrucciones contenidos en este catálogo podrán ser corregidos o modificados sin previo aviso.

# TERMS OF BUSINESS

## **IMPORTANTE**

La riproduzione di questo catalogo, anche parziale, è permessa soltanto in seguito ad una autorizzazione scritta. I grafici ed i disegni sono a marchio depositato e depositato coperti da copyright. Reclami per difetti, di qualsiasi natura essi siano, relativi al contenuto di questo catalogo, o all'uso improprio, verranno respinti. Le pretese avanzate o i reclami dovranno essere in conformità con le nostre condizioni generali di vendita. Il presente catalogo annulla e sostituisce tutte le edizioni precedenti.

Il catalogo non è un manuale per l'utilizzo ed il montaggio di alberi a camme, kit e componenti. Non contiene indicazioni in questo senso inoltre, non sostituisce le descrizioni tecniche, sempre prioritarie, in particolare per le tolleranze, né le istruzioni relative al montaggio ed alla manutenzione date dai costruttori dei rispettivi motori. Non può in nessun caso essere paragonato alla conoscenza professionale necessaria per il montaggio e l'utilizzo. Le considerazioni sul montaggio di alberi a camme, kit e componenti, fatte su questo catalogo, sono destinate esclusivamente a professionisti con formazione tecnica i quali verificheranno l'esattezza delle informazioni, in ogni caso. Le responsabilità derivanti dall'utilizzo improprio dello stesso non potranno essere addebitate alla Federal-Mogul.

I contenuti del catalogo non sostituiscono in alcun modo gli accordi contrattuali che sono riservati esclusivamente a due contraenti definiti; come venditore si intende una delle società Federal-Mogul menzionate sul retro del catalogo. Ci riserviamo il diritto di apportare correzioni e modifiche al contenuto del catalogo su istruzioni ricevute dal costruttore del motore.

## **WAŻNE**

Reprodukcja tego katalogu lub jego części jest możliwa tylko za wyraźną zgodą na piśmie. Ilustracje i grafika są chronione prawem autorskim. Roszczenia dotyczące szkód, niezależnie od formy, wynikających z przedstawionych w tym katalogu treści lub z nieprawidłowego użycia, zastosowania, przechowywania lub obsługi są w sposób wyraźny wyłączone. Prawa umowne i inne wynikające lub związane z roszczeniami na nimi opartymi, niezależnie od formy, są tworzone na podstawie oddzielnej umowy pisemnej, w szczególności na podstawie naszych ogólnych warunków sprzedaży i dostawy. Wszystkie wcześniejsze oświadczenia tracą ważność wraz z opublikowaniem tego katalogu.

Katalog nie jest instrukcją obsługi i instalacji wałków rozrządu, zestawów i komponentów. Nie zawiera porad w sensie prawnym. Katalog nie zastępuje obowiązujących uregulowań technicznych – zwłaszcza w zakresie tolerancji – ani opisów montażu i konserwacji poszczególnych producentów silników. Nie jest również możliwe pominięcie doświadczenia osób dokonujących doboru i przeprowadzających montaż części. Poszczególne odniesienia zawarte w tym katalogu, a dotyczące doboru, montażu i stosowania wałków rozrządu, zestawów i komponentów, są instrukcjami wyłącznie dla wykwalifikowanego technicznie specjalisty, który w każdym przypadku musi je sprawdzić i zweryfikować ich przydatność. Federal-Mogul nie przyjmuje odpowiedzialności za decyzje dotyczące zastosowania.

Zawartość tego katalogu nie stanowi ani nie zastępuje umowy, która może być zawarta jedynie jako oddzielny dokument podpisany przez dwie strony, przy czym sprzedawcą może być tylko jedna z jednostek koncernu Federal-Mogul, zgodnie z opisem na wewnętrznej stronie tylnej okładki. Zachowane zostaje prawo korygowania błędów i wprowadzania zmian, zwłaszcza odnośnie zmian dotyczących parametrów i warunków pracy określonych przez producentów silników.

## **ВАЖНО**

Воспроизводство данного каталога или его частей позволено только с нашего явного разрешения в письменной форме. Иллюстрации и дизайн защищены авторским правом. Любые требования о возмещении ущерба, исходя из содержания каталога или от неправильного использования, хранения или обращения явно исключены. Договорные права и любые связанные требования базировались, независимо от формы, на отдельном первоначальном письменном соглашении, в особенности на основе наших общих условий продаж и поставок. Все прежние утверждения теряют свою юридическую силу с публикацией данного каталога. Каталог не операционное руководство для использования и установки распределительных валов, комплектов и компонентов. Он не содержит совета в юридическом смысле. Каталог не заменяет применяемых технических инструкций – особенно при допусках – соглашений установки и обслуживания отдельного автопроизводителя. Кроме того, невозможно предсказать профессионализм тех, кто выполняет установку и ремонт. Отдельные ссылки, сделанные в этом каталоге для установки и замены распределительных валов, комплектов и компонентов являются инструкциями исключительно для технически компетентного специалиста и должны быть проверены им в каждом случае. Federal-Mogul не несет ответственности за ремонтные работы. Содержание каталога не предназначено для того, чтобы создавать или заменять любые договорные соглашения, которые должны быть сохранены исключительно к отдельному соглашению между 2мя сторонами, посредством чего продавец может быть только одним из юридических лиц Federal-Mogul как упомянуто на странице обратной стороны. Сохраняется право, исправлять ошибки и изменения, особенно относительно к поправкам по деталям изготовителей двигателя и их условиям.

# Keep it real. Keep out counterfeit.

The authenticity of all our engine and sealing products is protected by the MAPP Code (Manufacturers Against Product Piracy) and the PrioSpot® Authentication device, featured on a special Anti-Counterfeit label on the packaging. In this way you can be sure of our trusted Federal-Mogul quality!

## How to check the authenticity of your products

### 1 - Check if the packaging is closed and the label is intact

### 2 - Verify the unique alphanumeric code and data matrix code

- Type in the alphanumeric code at [www.fmecat.eu](http://www.fmecat.eu) or
- Read the Data Matrix Code with a 2-D scanner or
- Read the Data Matrix Code on your smartphone with a barcode reader app

### 3 - Verify the unique security code on the PrioSpot® Label

- Different code on each packaging

- Code contains the last 4 digits of the alphanumeric code
- The code and the Federal-Mogul logo shimmer in rainbow colours only in direct light
- Only in direct light a digit, repeating the last digit of the security code, is visible. This digit will move up and down when you change the angle of the PrioSpot®

# TROUBLE TRACER CHART

## Carbonised oil deposits

**Appearance:** Carbonised oil build-up on cam and followers.

**Causes:** Excessive operating temperatures resulting from marginal lubrication conditions due to contaminated lubricating oil or blockages/restrictions in oil feed galleries.

**Remedy:** Thoroughly flush the lubrication system, ensuring that all galleries and hydraulic lifters (where fitted) are free from blockages & debris. Install new camshaft and followers, prime with extreme pressure lubricant and replace oil and oil filter.

## Base circle contact marking

**Appearance:** Witness marking on base circle of cam-lobes, biased to one side.

**Causes:** Worn hydraulic lifter and/or retainer springs.

**Remedy:** Replace cam and followers if marks are deep, otherwise set tappets to correct clearance. Thoroughly flush the lubricating system and replace oil and filter.

## Cam-lobe and follower wear

**Appearance:** Premature wear of one or more cam-lobes & followers. Follower contact surface will be concaved with chipped edges.

**Causes:** Incompatible cam-lobe & follower contact surface geometry. Often caused by fitting new camshaft with old followers or vice versa. Can also result from lubricant starvation from blocked or restriction in oil supply.

**Remedy:** Thoroughly flush the lubricating system, replace cam and followers, prime with extreme pressure lubricant and replace oil and oil filter.

**Do not mix old and new components.**

## Follower breakage

**Causes:** Mechanical overload resulting from:

- 1 Sticking or seized valve, resulting in the follower to break due to cam-lobe pressure.
- 2 Piston contact with the valve due to:
  - a Weak valve spring
  - b Over extended hydraulic lifter
  - c Incorrect assembly of valve tip-cap
  - d Timing belt breakage
  - e Or through over high revving of engine.
- 3 Incorrect valve timing.

**Remedy:** investigate & rectify the mechanical overload cause. Thoroughly flush the lubricating system, replace all damage components, prime cam and followers, with extreme pressure lubricant and replace oil and oil filter.

## Excessive cam-lobe wear

**Appearance:** Severe cam-lobe wear.

**Causes:** Contaminated lubricating oil, tappet clearances too tight, excessive valve spring pressure.

**Remedy:** Thoroughly flush the lubrication system, install new camshaft and followers. Adjust tappets to the correct clearances, prime with extreme pressure lubricant and replace oil and oil filter.

## Broken camshaft

**Appearance:** Camshaft breakage between or through cam-lobes.

**Causes:** Severe distorted camshaft housing or cylinder head. Incorrect torque sequence and mishandling can also cause similar breakage.

**Remedy:** Straighten or replace camshaft carrier/cylinder head, use correct bolt torque sequence and handle with care. Thoroughly flush the lubricating system, replace cam and followers, prime with extreme pressure lubricant and replace oil and oil filter.

## 'Scored' bearings

**Appearance:** Severe scoring of the camshaft bearings.

**Cause:** Contaminated lubricating oil, i.e. foreign particles circulating in oil.

**Remedy:** Thoroughly flush the lubricating system, replace cam and followers, prime with extreme pressure lubricant and replace oil and oil filter.

## Overheated camshaft

**Appearance:** Cam-lobes, bearings & followers have a 'blue' discoloration.

**Causes:** Severe overheating of engine due to malfunction of the cooling system.

**Remedy:** Investigate and rectify the cause of the overheating. Thoroughly flush the lubricating system, replace cam and followers, prime with extreme pressure lubricant and replace oil and oil filter.

## Physical damage to camshaft & followers

**Appearance:** Cam-lobes, bearings & followers "chipped"

**Causes:** Excessive end-float due to:

- a Worn thrust washer
- b Loose distributor
- c Worn distributor drive gear
- d Or misaligned timing gears

**Remedy:** Investigate and rectify the cause of the damage. Thoroughly flush the lubricating system, replace cam and followers, prime with extreme pressure lubricant and replace oil and oil filter.

# TECHNICAL NOTES

Technische Hinweise • Notes techniques • Note tecniche  
Notas técnicas • Notatki techniczne • Технические примечания

1	Automatic Transmission	17	Euro 1 to Euro 2
2	Manual Transmission	18	Camshaft driven vacuum pump.
3	For cylinder 1-3	19	K Jetronic
4	For cylinder 4-6	20	Steel
5	Height: 24mm	21	Diamond-coated
6	Height: 25mm	22	With sensor
7	Height: 26.5mm	23	Without sensor
8	Height: 26mm	24	Chilled Cast Iron
9	Height: 28.5mm	25	Hydraulic Lifter & Rocker Arm Assembly
10	Height: 35mm	26	Induction Hardened Cast Iron
11	Hydraulic	27	Pulley driven vacuum pump.
12	Manual	28	Refer to SB2202 for installation guide
13	Mechanical	29	Short version
14	Euro 2	30	Long version
15	Euro 3 (D3)	31	Bridge Piece
16	Euro 3 (D3); Euro 4 (D4)		

1	Automatikgetriebe	17	Euro 1 zu Euro 2
2	Schaltgetriebe	18	Von der Nockenwelle angetriebene Unterdruckpumpe
3	zum Zylinder 1-3	19	K Jetronic
4	zum Zylinder 4-6	20	Stahl
5	Höhe: 24mm	21	Diamantbeschichtet
6	Höhe: 25mm	22	Mit Sensor
7	Höhe: 26,5mm	23	Ohne Sensor
8	Höhe: 26mm	24	Hartguss
9	Höhe: 28,5mm	25	Hydrostößel & Kipphebeltrieb
10	Höhe: 35mm	26	Induktionsgehärteter Hartguss
11	Hydraulisch	27	Von der Riemenscheibe angetriebene Unterdruckpumpe
12	Manuell	28	Beziehen Sie sich auf SB2202 für den installationshandbuch
