# WORN WIPERS ARE DANGEROUS CHANGE YOUR WIPERS IN TIME

## Good visibility

A perfect wipe? You must be using brand new Champion wipers. One or two minor streaks in the margins of the windscreen this is acceptable.

## Wind lift

If the wiper "misses" parts of the windscreen at high speed, replace the wiper blades and check the wiper arm for damage or wear - replace if necessary.

## Unwashed areas

Deterioration of wiper blade linkage or decreased wiper pressure can leave parts of the windscreen unwashed.

## Permanent small streaks

Multiple and recurring streaks in the central part of the windshield are indicators the wiper is due for replacement. We recommend you change your wipers at the next opportunity.

### Lace curtains

Lack of use can result in deformation of the wiper blade lip causing a veil effect across the windscreen – particularly dangerous at night. Change your wipers as soon as possible.

### Chatter hopping

Deformed wiper rubber, worn linkage or wiper arm can cause juddering across the screen leaving behind radial streaks. Change your wiper blades and replace other parts as necessary.

### Noisy

Noisy wipers may be a sign that the wiper element is deformed or hardened or that the wiper blade structure is worn. Time to replace them.

### Lines or bands

Wiper rubber wears out or becomes damaged with age resulting in thick bands of uncleared water left on the windscreen. Change your wipers straight away.

Reproduction of this catalogue or parts thereof is only allowed with our explicit permission in writing. Pictorial representations and design are copyrighted. Claims for damages, of any form whatsoever, resulting from details made in this catalogue or from incorrect use, application, storage or handling, are explicitly excluded. Contractual rights and any resulting or related claims based thereon, irrespective of form, initially come into being on the basis of a separate written agreement, in particular on the basis of our general terms of sale and delivery. All former statements lose their validity with the publication of this catalogue. The catalogue is not an operating manual for the use and installation of the wipers. It does not contain any advice in a legal sense. The catalogue neither replaces the constantly applicable technical regulations – particularly for tolerances – nor the installation and maintenance stipulations of the individual vehicle manufacturer. Also, it is not possible to forego the expertise of those carrying out the installation and application. The individual references made in this catalogue for the installation and the application of the wipers are instructions solely for the technically qualified specialist and are to be checked and verified by them for their suitability in each case. Federal-Mogul accepts no responsibility for application decisions. The contents of the catalogue are not intended to create or substitute any contractual agreement which has to be reserved exclusively to a separate agreement between 2 identified parties, whereby seller can be only one of our Federal-Mogul entities as mentioned on the back cover page. The right is retained to correct errors and alterations, particularly with regard to amendments in the vehicle manufacturer's details and stipulations.
