

**Payen® launches new Pro-Fit range of tools and products**  
***Carefully selected items present a solution for installers to help***  
***save money and time***

Paris, France, October 18, 2017 ... Federal-Mogul Motorparts, a division of Federal-Mogul LLC, today announced the launch of the Payen® Pro-Fit range. The range provides installers and engine rebuilders with a complete offering of all Payen professional service products under one hallmark. It also guarantees the quality of tools and materials to enable completion of quick and precise OE-standard fitments at a competitive price.

“Federal-Mogul Motorparts is meeting its customers’ expectations with this new Payen Pro-Fit range,” explained Zane Verdina, Brand Manager, Engine and Sealing, Federal-Mogul Motorparts. “This new product offering enables installers to benefit from a single source of proven, OE-quality tools and materials to help streamline their workflow and provide tangible business benefits. It provides a trusted source of known quality, removing confusion and reducing the chance of selecting sub-optimal alternatives.”

The Payen Pro-Fit range includes an all-purpose sealing compound and compact application gun for convenient usage. The compound adheres to any surface in all internal combustion engines and is resistant to temperatures of up to 300°C. Available both in tubes and cartridges, the Pro-Fit range also includes the Wellseal jointing compound.

Careful consideration has been given to the makeup of the Pro-Fit range. For example, the washer box helps mechanics to quickly select the correct washers, among the fourteen different types available, thanks to its handy reference chart. Three spaces remain unused, providing handy room for future customization.

As part of the range, the Snap-Ups represent a real opportunity to save time, as the oil pan change is no longer a two-man job; Snap-Ups keep the oil pan and the gasket in place while the bolts are inserted. Finally, the Pro-Fit range includes general purpose gasket sheets, suitable for a wide range of oil, air and coolant sealing applications. These meet OE requirements and are available in a selection of different thicknesses and sizes.

Payen offers a full range of fibre, multi-layer steel and steel/elastomer gaskets, valve stem and oil seals, as well as all types of cylinder head bolts. With more than 10,500 gasket, oil seal and headbolt references, the Payen brand brings customers solutions for almost every light and heavy-duty vehicle application.

### **About Federal-Mogul**

Federal-Mogul LLC is a leading global supplier of products and services to the world's manufacturers and servicers of vehicles and equipment in the automotive, light, medium and heavy-duty commercial, marine, rail, aerospace, power generation and industrial markets. The company's products and services enable improved fuel economy, reduced emissions and enhanced vehicle safety.

Federal-Mogul operates two independent business divisions, each with a chief executive officer reporting to Federal-Mogul's Board of Directors.

Federal-Mogul Motorparts sells and distributes a broad portfolio of products through more than 20 of the world's most recognized brands in the global vehicle aftermarket, while also serving original equipment vehicle manufacturers with products including braking, wipers and a range of chassis components. The company's aftermarket brands include ANCO® wipers; Beck/Arnley® premium OE quality parts and fluids; BERU®\* ignition systems; Champion® lighting, spark plugs, wipers and filters; Interfil® filters; AE®, Fel-Pro®, FP Diesel®, Goetze®, Glyco®, National®, Nüral®, Payen®, Sealed Power® and Speed-Pro® engine products; MOOG® chassis components; and Abex®, Ferodo®, Jurid® and Wagner® brake products and lighting.

Federal-Mogul Powertrain designs and manufactures original equipment powertrain components and systems protection products for automotive, heavy-duty, industrial and transport applications.

Federal-Mogul was founded in Detroit in 1899 and maintains its worldwide headquarters in Southfield, Michigan. The company employs nearly 53,000 in 24 countries. For more information, please visit [www.FMmotorparts.eu](http://www.FMmotorparts.eu)
